Dear ActiveXperts customer,

Thank you for your order. We appreciate your business! Unless you specified otherwise when placing your order, the media and corresponding documentation for your software will ship to you directly.

If you chose to have media shipped to you, it will arrive via your chosen shipping method. If you wish to download your software now, use the instructions below.

### Download

Your download link will be available for an unlimited time after your purchase. This is your URL:  
<http://www.activexperts.com/download?p1=ax003>

IMPORTANT: It is not necessary to download the full version of this product if you already have the evaluation version installed. You can simply convert the evaluation to a full product by activating it (see below).

### Product Activation

To activate the product, you need a Registration Code. This code is printed on your License Certificate.

You can activate the product in three different ways:

1. Activate by (re)installing the product using the Setup program. During installation, the InstallShield wizard will prompt you for a Registration Code.
2. Activate by calling the `Activate` function of the component:  

```
Set objComport = CreateObject("ActiveXperts.Comport")  
objComport.Activate "XXXXX-XXXXX-XXXXX"
```
3. Activate by modifying the registry:
  - Start the registry editor (either `REGEDT32.EXE` or `REGEDIT.EXE`);
  - Open/create the `HKLM\Software\ActiveXperts\ActiveComport` key;
  - Add the following value:  
Name: `RegistrationKey`  
Type: `REG_SZ`  
Value: `XXXXX-XXXXX-XXXXX`

Regards,

ActiveXperts Software
