

# Electric E-retract Retractable 25mm Landing Gear For RC Airplane

**Produktkode:** 736aa  
**Tilgjengelighet:** 3

**Pris:** kr. 260,00

## Short Description

PZ-15091 4.8-6V Electric E-retract Retractable 25mm Landing Gear For RC Airplane

## Beskrivelse

### Product Description

#### 4.8-6V Electric E-retract Retractable 25mm Landing Gear

- Size: 73.5\*44.0\*28.0 mm 2.89\*1.73\*1.1inch (L\*W\*H)
- Weight: 54g
- Speed: 0.8S/60°@4.8V; 0.6S/60°@6.0V,
- Torque: 2.7kg-cm@4.8V: 3.0kg-cm@6.0V:
- Operating Voltage: 4.8V-6.0V
- Landing Struct Diameter: 25mm

### Package include

- 1pc \* Electric Retractable Landing Gear

## Product Gallery

## PZ-15091

Rotating part: plastic

Gear type: the metal teeth

Product weight: 54 g

Appearance of size: 73.5 \* 44.0 \* 28.0 mm

Operating voltage: 4.8 V to 6.0 V

Operating Angle: 90° (1000-2000 mu in SEC)

Signal lines: palm red orange L = 150 mm general plug JR

Accessories: X1 square floor X1 + screw

Features:

1. The built-in miniature PCB integrated motor over-current protection for aircraft weight 3.0 kg for a wingspan of 1.0 m
2. Automatic power-off protection design for 10 SEC, overload protection circuit burn out
3. Double damping design complete protection gear
4. Suitable for 5.0 mm steel shaft
