

PCI-E 4x Express to USB 3.1 USB-C Type C Dual Port

Produktkode: 924aa
Tilgjengelighet: 1
Lager : kontormaskin

Pris: kr. 360,00

Short Description

PCI-E 4x Express to USB 3.1 USB-C Type C Dual Port Add on Expansion Card Adapter

Beskrivelse

Mp tilkobles power

2 ports USB-C USB 3.1 Type-C PCI Express Card

With super performance, small form factor, higher power capacity and reversible plug orientation, the SuperSpeed+ USB 3.1 Type-C interface will be the trend of IT technology, and a great solution adopted by consumer electronics and portable devices.

USB3.1 Type-c PCI-e add-on card instantly adds one USB 3.1 Type-C port to your desktop PC. Compliant with the latest USB 3.1 standard, this card provides up to 10Gbps theoretical transfer rate and maintains compatibility with legacy standards including USB 3.0, 2.0, and 1.1. It's based on PCIe Gen3 x1 interface for fast speed and compatibility with slots of various PCIe lanes.

Features:

USB 3.1 a super fast and high-capacity data transfer solution.

Compliant with USB 3.1 specification.

Date transfer rate up to 10Gbps / 1GB/s.

Compatible with USB 3.0, 2.0 & 1.1 specification.

Compliant with PCI-Express specification revision 2.0x2X.
Supports 10Gbps PCI-E bus with full duplex channel.
Stable and reliable ASMEDIA Chipset ASM1142.
2 USB 3.1 type C female connectors available.
PCI-E 4X connector fits PCI-E 4X, 8X or 16X slot.
Plug & play and hot swapping capability.
Connect to PC power supply with 15 pin SATA Power Connector
Support Windows 7 / 8 / 8.1 & Linux Kernal.

Ports:

2 x USB-C

1 x Sata Power

Package included:

1 x 2 Pot USB-C PCIe Card
