

# Motor driver

**Produktkode:** 242  
**Tilgjengelighet:** 8

**Pris:** kr. 45,00

## Short Description

H-bridge Stepper Motor Dual DC Motor Driver Controller Board HG7881 For Arduino

## Beskrivelse

### Product Description

1. onboard Two PCS HG7881 motor controller chip
2. module can drive 2 DC motors simultaneously, or one 4-wire 2-phase stepping motor
3. module input voltage: 2.5-12V
4. has a continuous current of 800mA per channel output capacity
5. PCB size: 29.2 (mm) x23 (mm)

## Package Included:

1 x H-bridge Stepper Motor Dual DC Motor Driver Controller Board HG7881 For Arduino
