

GY-81 9DOF IMU

Product Code: 202aa

Stock: 1

Price: kr. 550,00

Short Description

Chips:HMC5883L+BMA180+ITG3205+BMP085

Description

Chips:HMC5883L+BMA180+ITG3205+BMP085

Description

Model: HMC5883L+BMA180+ITG3205+BMP085 Module Fight Control Module

Three-axis magnetic field+ three axes acceleration+ three-axis gyroscope + Atmospheric pressure)Nine-axis attitude control

The gyroscope built-in 16bit AD converter, 16-bit data output

The magnetic field built-in 12bit AD converter, 16 forms of data output

Acceleration built-in 10bitAD converter ,16 forms of data output

Machine welding process to ensure quality standard 2.54mm pin spacing

Power supply :3-5v (internal low dropout regulator)

Communication modes: standard IIC communication protocol (fully compatible with the system 3-5v)

Magnetic field range: $\pm 0.88/1.3/1.9/2.5/4.0/4.7/5.6/8.1$ gauss

Acceleration range: $\pm 2\text{ g} / \pm 4\text{ g} / \pm 8\text{ g}$

Gyro range: $\pm$ of 250/500/1000/2000 ° / sec

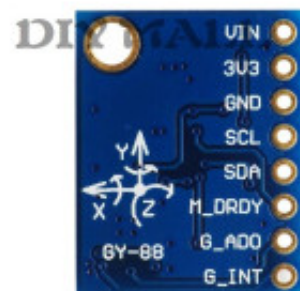

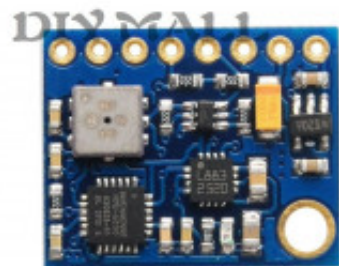

Package Included:

1 X GY-81 Module

Biliblitter
