Kort beskrivelse
Micro SD Card Module 6 Pin SPI Interface for Arduino

Denne modulen bruker VCC=5 volt og har en internt 3.3volt regulator.

Beskrivelse
Micro SD card module 6Pin SPI Interface for Arduino UNO MEGA DUE

Description:

The module is a Micro SD (TF) card reader module, this module has SPI interface and 5V power supply which is compatible with Arduino UNO/Mega, Arduino users can directly use the Arduino IDE comes with SD card program library to initialization and read-write this module.

Specification:

Item	Min	Typical	Max	Unit
Power Supply VCC	4.5	5	5.5	V
Current	0.2	80	200	mA
Interface Power Supply	3.3 or 5			V
Support Card Type	Micro SD Card(<=2G)			?

	Micro SDHC Card(<=32G)	
Size	42X24X12	mm
Weight	5	g

Package Include:

1* Micro SD (TF) card reader module
