Electric E-retract Retractable ?5mm Landing Gear For RC Airplane

Produktkode: 736aa
Tilgjengelighet: 3
Weight: 0.00g

Pris: kr. 260,00

Kort beskrivelse
PZ-15091 4.8-6V Electric E-retract Retractable ?5mm Landing Gear For RC Airplane

Beskrivelse
Product Description

4.8-6V Electric E-retract Retractable ?5mm Landing Gear

- Size: 73.5*44.0*28.0 mm 2.89*1.73*1.1inch (L*W*H)
- Weight: 54g
- Speed: 0.8S/60°@4.8V; 0.6S/60°@6.0V,
- Torque: 2.7kg-cm@4.8V: 3.0kg-cm@6.0V:
- Operating Voltage: 4.8V-6.0V
- Landing Struct Diameter: ? 5mm

Package include

- 1pc * Electric Retractable Landing Gear

Produktgalleri

PZ-15091

Rotating part: plastic
Gear type: the metal teeth
Product weight: 54 g
Appearance of size: 73.5 * 44.0 * 28.0 mm
Operating voltage: 4.8 V to 6.0 V
Operating Angle: 90 ° (1000-2000 mu in SEC)
Signal lines: palm red orange L = 150 mm general plug JR
Accessories: X1 square floor X1 + screw

Features:
1. The built-in miniature PCB integrated motor over-current protection for aircraft weight 3.0 kg for a wingspan of 1.0 m
2. Automatic power-off protection design for 10 SEC, overload protection circuit burn out
3. Double damping design complete protection gear
4. Suitable for 5.0 mm steel shaft
