804 Brushless motor DC12V

Produktkode: 896aa
Tilgjengelighet: 6
Weight: 0.00kg

Pris: kr. 160,00

Kort beskrivelse
2804 Brushless motor DC12V Micro NdFeB Strong Magnet 320KV for Handheld SLR Camera RC Aircraft Drone SimpleFOC shield

Beskrivelse

Specification

A Motor B Motor Three-phase brushless motor, PTZ motor, infinite position, can run 360 degrees continuously C motor rotation limited position can only rotate 100 degrees

Motor diameter: 33.6 MM
Motor thickness: 18.2 MM
Voltage: DC12V
Current: 180 MA
Speed: 3840 RPM
KV value: about 320 KV
Motor weight: 34g
Three-phase brushless and no drive, it can only run with an external drive
