	4	5740M	5760M	5780M	5800M	5820M	5840M	5860M	5880M
	Sensitivity	-90dBm+/-1dBm							
	Antenna port	2 * SMA, 50ohm							
	Video Standard	NTSC / PAL							
	Video output level	1.0Vp-p Typ / 75ohm							
	Audio output level	1.0Vp-p Typ / 10Kohm							
Front Lens	FOV	120 degrees (Diagonal)							
	Resolution	640 * 480 (VGA)							
	FOCAL LENGTH	f=0.95mm							
	F / ON	F / ON=2.0							
Head Tracker	Sensor	Magnetic, Intertial and gyro							
	Output	PPM 8 channel, Optional 5-6CH, 5-7CH,5-8CH, 6-7CH, 6-8CH, 7-8CH							
AV Port	Div. AV OUT (3.5mm 4P)	Diversity video, Audio output							
	EAR OUT (3.5mm 3P)	32ohm / 75mW or 16ohm / 15mW, with volume control							
	AV IN (3.5mm 4P)	video, audio input							
Power Supply	DC IN	DC 7-28V / 1A							
	Power Consumption	12V input: 4.3W							
Item Size		16.8 * 8.0 * 4.1cm / 6.7 * 3.2 * 1.6in (L * W * H) (Not include prominent part)							
Item Weight		175g / 6.2oz							
Operating Temperature		0?—55 ?							

Package size: 20 * 13.5 * 7.0cm / 7.9 * 5.3 * 2.8in

Package weght: 595g / 20.1oz

Package List: RM457

1 * GOGGLES

2 * 5.8G Antenna

1 * Futaba Cable

1 * JR Data Cable

1`* WFLY Data Cable

1 * AV Cable

1 * Power Cable

1 * Carry Bag
1 * User Manual (English)

Mer info

The new Skyzone FPV Goggles are flat out the most advance and feature rich FPV goggles on the market.

Skyzone has designed their new goggles from the ground up for FPV, so no compromises were made. The High resolution widescreen matched with a 30 degree field of view puts you in the cockpit, blend that with the state of the art auto centering head-tracker and you have a true immersion like you have never seen.

Skyzone has matched there beautiful FPV view with reliability and adjustability, from the built in 32 channel dual diversity 5.8GHz receiver too the IPD and Diopter adjustments. The goggles have full A/V in's and out's for DVR's or monitors or heck even watch a movie with them, but with a quick push of a button your view switches to the front built in camera allowing you to perform all kinds of tasks without the need to lift the goggles. The Goggles also feature light tight comfortable eyecups and an earphone jack with volume control.

The quality and feature Of the new Skyzone FPV Goggles have definitely raised the bar, so If you're ready for some seat of your pants barnstorming type of flying from the cockpit view.. Look at Skyzone goggles.

Features:
• Built-in 32CH 5.8G Diversity that is compatible with most FPV 5.8G transmitters on the market(Fatshark,DJI,Walkra,Boscam etc)
• Built-in self-calibrating dual axis head tracking (gyro, inertial and compass)
• Built in Dual 854X480(WVGA) Monitors, 1,229,760 color sub-pixels
• Built-in external camera for surrounding view (640X480)
• AV in/ AV out/ Earphone socket (with volume control)
• Adjustable Interpupillary and Diopter for your eyes
• Adjustable brightness and contrast

Specs:
FOV: **30 degrees**
Resolution: **854x480 (WVGA) 1230k**
Interpupillary (IPD) distance: **60-68mm adjustable, Diopter with optional lenses**
Channels: **32CH 4band 5.8GHz (Fatshark, Boscam & Skyzone compatible)**
Receiver: **Dual ISM 32ch Diversity receiver -90dbm Sensitivity**
Video format: **NTSC/PAL**
Antenna connector: **2x SMA 50ohm**
Video in/out: **1.0VP/75ohm**
Audio in/out: **1.0VP/10kohm**
Front internal camera: **120 degree 640x480**
head tracker: **Compass/ Inertial and gyro ppm selectable channel output**
A/V port: **3.5mm**
Ear Out: **3.5mm with volume control**
power Supply: **dc7-28v / 1A**
Power consumption: **4.3w**

Leveringsstatus

Har en på lager som er testet og brukt internt.

Kan selges til redusert pris som brukt.
