MP1584EN Adjustable 3A DC-DC Converter

Produktkode: 968aa
Tilgjengelighet: 3
Custom Field 5 (Location): T15

Pris: kr. 56,00

Kort beskrivelse

MP1584EN Adjustable 3A DC-DC Converter Step Down Voltage Regulator Module Replace LM2596s MP1584 Buck Board

Beskrivelse

- **High-efficiency step-down voltage regulator** The **MP1584EN** module delivers stable **3A output current** with efficient DC-DC buck conversion, ideal for power management in various electronic projects and DIY applications.

- **Adjustable output voltage range** This **adjustable voltage regulator** supports a wide output voltage range, allowing precise control for different circuit requirements, making it a versatile choice for multiple power supply needs.

- **Compatible with LM2596S replacements**

Designed as a di
rect replacement for **LM2596S**, this
MP1584EN buck board
ensures seamless integration into existing circuits wi
thout requiring major modifications.

- **Available in 1PC, 5
PC, or 10PC packs** Choose from
**1 piece, 5 piec
es, or 10 pieces per pack**
, offering flexibility for individual use, small-
scale projects, or bulk replacement needs.

- **Compact and lightweight d
esign** The
**compact buck converter mod
ule**
is lightweight and easy to install, making it suitable
for space-constrained applications and portable electr
onic devices.

- **Universal applicati
on in electronics**
Suitable for use in
integrated circuits
projects, power supplies, and embedded systems, this m
odule supports reliable performance across diverse elec
tronic setups.

- **Origin from Mainl
and China, brand-free** Manufactured in
Mainland China, this **new condition**
voltage regulator module is sold without a brand name,
offering a cost-
effective solution for technical users.
